How's this for a 911 Conspiracy Theory ?

19 Arab muslims outwitted the most sophisticated military defence system in the world - 4 times in succession
They defeated the laws of physics - by having collapsing buildings fall at free fall rate
They defeated the laws of chemistry - by melting steel girders [2750F] with aviation fuel [1517F]
They brought down THREE WTC buildings (# 1,2 and 7) by hitting only TWO of them
Each building happened to fall neatly into its own 'footprint'
All of the hijackers were on board - we're not sure yet why none of their names appeared on any of the flight manifests
At least five of the hijackers turned up alive and well, after their suicide missions on 9/11 - they now live in the middle east - some interviewed by the BBC!!
A plane hit the Pentagon (one of the most guarded buildings in the USA)
- Unfortunately no CCTV footage of the actual plane exists (the wreckage, plane parts, luggage and bodies were never found)
Cell phone calls were made at altitudes and speeds that are usually impossible (over 2,000 feet / over 230 mph).
We still don't know how they did this

Unfortunately for democracy that's the official line on 911 !
stop wild conspiracy theories such as the above - insist on scientific truth!!!
 If you don't then the real perpetrators will continue to change peaceful world from this... into this...

- ✓ It was not hit by a plane
- ✓ Building 7's collapse was not mentioned in the 9/11 Commission Report
- ✓ After 10 years, 1 in 3 New Yorkers still didn't know about Building 7's collapse
- ✓ It took only 6.5 seconds for this 47-story building to collapse to the ground
- ✓ The U.S. government acknowledges that it collapsed at free-fall for the first 100 feet
- ✓ Authorities knew all day Building 7 would collapse but engineers afterward were baffled by it
- ✓ Over 2,000 architects and engineers call for a new Building 7 investigation

WHICH 9/11 CONSPIRACY RU?

10

DID YOU KNOW

On September 10, 2001, one day before the tragic events of 9/11, Donald Rumsfeld announced to the public that the Pentagon 'could not account for \$2,300,000,000,000'?

THE PLANES

1. LIGHT TRICK: Some photos of United Airlines Flight 175 (above, left) appear to show a bulge in the fuselage at the base of the Boeing 767's right wing. Some theorists speculate that this could be a "military pod" or missile. Experts say the photo is distorted by sunlight and that the bulge is, in fact, the plane's right fairing, which holds the landing gear, as seen in the photograph of an identical Boeing 767 (above, right).

2. PLAIN VIEW:

One eyewitness reported that the plane that hit WTC 2 did not have any windows, leading to speculation that it could have been a military cargo plane or fuel tanker. This photo of aircraft debris on the roof of WTC 5 includes a section of fuselage that clearly had passenger windows.

Figure 9-81. This cropped photograph of the east face of WTC 2 was shot at 9:55:04 a.m. The image has been rotated, and the intensities have been adjusted. Column and floor numbers have been added. Arrows indicate a hanging object visible through open windows on the 82nd floor.
