Evaluate performance by relevance.

search for images

	D	E	D	E	D	E	weight
# overlapped images(exactly same)	2	0	0	0	0	0	-2
# too similar images	6	2	2	0	4	4	-1
# relevant images	14	15	2	0	15	15	1
# irrelevant images(not at all)	**0**	**0**	**0**	**15**	**0**	**0**	**-3**
# that I liked among relavant images	**7**	**5**	**4**	**0**	**11**	**1**	**3**
overall result	25	28	12	-45	44	14	

	D	E
average	27	-1
stdev	16.09348	38.74274

" I prefere the overall result of D than E. Especially for the second qustion, D perfomed way better than E cause E failed totally"

3 * (# that I liked) - 3 * irrelevant	21	15	12	0	33	3

" The difference between D and E is empathized if I compare them using only the most critical factors on my rubric."

=> D performed better than E in terms of relevance on the search for an image.
=> D was Google and E was Bing, so according to the rubric I prefered 'Google'.

search for webpages

Q1. for the questions that I don't have a answer:
    'A' shows more diverse and interesting searches thatn 'B' and 'C'.
    'C' works good too. But 'B' has 4 exact overlpapped links.

Question		weight	3		
1. What to do in Main?			first page		
	weight		A	B	C
	-2	overlapped(exactly same) result	0	4	0
	-2	# of irrelavant result	0	0	0
	2	How close to what I am looking for (0-5)	4	2	3
	2	diverse and interesting result (0-5)	4	1	3
	1	suggested for(0-5)	3	5	1
	evaluation		**19**	**3**	**13**

=> A was Google.

Q2-3. are the questions that I have an answer(target that I am looking for):
    C scored the highest point on both questions.

Question		weight	3		
2. succulent green thin coin like leaves with pink lines on the rim			first page		
	weight		A	B	C
	-2	overlapped(exactly same) result	0	0	0
	-2	# of irrelavant result	3	1	1
	2	How close to what I am looking for (0-5)	4	3	5
"this question is not relavant to diversity"	2	diverse and interesting result(0-5)	0	0	0
	1	suggested for	0	0	0
	evaluation		**2**	**4**	**8**

=> C was Bing

Question		weight	3		
3. I am not tamed.			first page		
	weight		A	B	C
	-2	overlapped(exactly same) result	0	0	0
	-2	# of irrelavant result	2	4	0
	2	How close to what I am looking for (0-5)	3	2	5
	2	diverse and interesting result(0-5)	3	2	1
	1	suggested for	0	0	4
	evaluation		**8**	**0**	**16**

=> C was Google

=> For a <u>no-answer question, Q1</u>, 'A' provided more diverse and interesting search results.
=> If a user has some specific target, those questions well answerd by 'C'.

=> Overall, 'Google' gave me the more relavant result to my questions.

=> C was Google

=> For a <u>no-answer question, Q1</u>, 'A' provided more diverse and interesting search results.
=> If a user has some specific target, those questions well answerd by 'C'.

=> Overall, 'Google' gave me the more relavant result to my questions.
